

3 November 2017

Dear Parents,

We are today able to announce further recognition for the school, and I thought you would like to be the first to know. Some will recall last year we were recognised in the British International School (BIS) awards:

We have done it again!

The annual TES (Times Educational Supplement) Independent School Awards are presented to UK schools for their achievements in a number of categories. There is also one overseas category, with **just four schools selected worldwide**.

This is an outstanding recognition of the progress being made by our school in its pursuit of excellence in everything we do. The awards ceremony is in London in February. The competition is obviously strong, but to be selected from amongst schools all over the world is a credit to our staff, students - **and of course to you!**

Congratulations!

**Simon Leese
Principal**
